

Risk Assessment Sing Together OUTSIDE
May 2021

Use the following to rate the risk and plan corrective action:

Risk level	Category	Tolerability	Comments
1 - 2	VERY LOW	Acceptable	No further action is necessary other than to ensure that the controls are maintained
3 - 4	LOW	Acceptable	No additional controls are required unless they can be implemented at very low cost (in terms of time, money and effort)
5 - 7	MEDIUM	Tolerable	Consideration should be given as to whether the risks can be lowered, where applicable, to a acceptable level, but the costs of additional risk reduction measures should be taken into account. The risk reduction measures should be implemented within a defined time period
8 - 14	HIGH	Tolerable	Substantial efforts should be made to reduce the risk. Risk reduction measures should be implemented urgently within a defined time period and it might be necessary to consider suspending or restricting the activity, or to apply interim risk control measures, until this is completed. Considerable resources might have to be allocated to additional control measures.
15 and above	VERY HIGH	Unacceptable	Substantial improvements in risk control are necessary, so that risk is reduced to a tolerable or acceptable level

Activity	Location	Hazard	Mitigations	Responsibility	Risk rating
Entering and leaving the event area	Entrances and exits	Breathing aerosols	Wear a mask	ALL	
Travelling to the event area	Public transport	Breathing aerosols Touching surfaces	Wear a mask Sanitise on arrival	ALL	
Warm up singing exercises	Outside in event area	Breathing aerosols	Keep at a distance of 2m	ALL	
Singing	Outside in event area	Breathing aerosols	Keep at a distance of 2m	ALL
